RS

Sharp round point

- Very slim and sharp point
- Suitable for fine densely-woven fabrics
- Standard point for blind stitch and Schiffli embroidery
- Exact piercing of the material
- Perfectly suited for very straight lockstitch seams

Product examples:

Blouses, fine skirts, trousers, curtains

R

Normal round point

- Slightly sharp point
- Suitable for woven fabrics, coated materials, soft clothing leather and artificial leather
- Standard point for lockstitch

Upper and outer wear, leather accessories, upholstery

RG

Normal round point with small ball

- Slightly rounded shape of the point
- Suitable for knitted and woven fabrics and microfiber
- Standard point for chainstitch as well as single and multihead embroidery
- Perfectly suited for button sewing

Upper and outer wear, jeans, suits

FFG

Small ball point

- Round point with small ball
- Suitable for fine and medium-weight knitted and woven fabrics
- When penetrating the material, the small ball point displaces the loops so that the material doesn't get damaged.
- Perfectly suited for jersey and tricot fabrics

T-shirts, underwear, jeans, fine pullovers

FG 

Medium ball point

- Round point with medium ball
- Suitable for loose-knit fabrics, elastic material and material containing rubber or elastomer

Product examples:

Pullovers, lace, curtains, bandages, foundation garments

G 

Big ball point

- Round point with big ball
- Suitable for very coarse knitwear, open materials (e.g. net lace) and elastic fabrics with braided elastomer threads

Coarse pullovers, cardigans, bandages

SKL 

Special ball point (Lycra)

- Very broad and heavily rounded point
- Suitable for warp knit fabrics with high elastane content
- Perfectly suited for the processing of Lycra

Foundation garments, orthopaedic clothes, bandages

TR 

Special ball point (drop-shaped)

- Drop-shaped point
- Suitable for open materials (e.g. net lace)
- To use for single and multihead embroidery as well as Schiffli embroidery

Laces, curtains
